## Outrigger Palau Resort and Marina

Arakabesan Island, Republic of Palau

Located on a steep oceanfront site on the south coast of Palau's Arakabesan Island, this 13.4 acre, 166-room resort terraces down a steep hillside to the ocean. Designed with steeply pitched roofs resembling traditional Palau 'abai' longhouses, the four, five-story single-loaded guestroom buildings all have full ocean views with large lanais to capture the feel of the lush site. The main Lobby facility is designed in the style of a traditional longhouse with large ceiling volumes and expansive ocean views. Luxury over-water bungalows with private boat docking facilities ring the ocean edge and are accessed via a boardwalk passing through natural mangroves. As part of the development, a beach lagoon is to be dredged and new sand beach created, along with an 80-slip marina with commercial dive center and an over-water restaurant and bar.
