Client CHA Development

Maui Tech Park

Kihei, Maui, Hawaii

Located in the Maui Technology Park campus in Kihei, South Maui, this 50,000 sf facility is geared towards hi-tech information science tenants who share use on the Maui supercomputer facility. The 2.8 acre corner site is adjacent to the Tech Park's main Parkway, and due to possible occupancy by companies performing security level work for the US Government, special Anti-Terrorist Force Protection (ATFP) design standards must apply to the facility. On-grade parking around the facility provides 189 stalls, part of which must be secured to comply with ATFP requirements.
