UH Hilo Student Life and Events Center

Hilo, Hawaii

The UH Hilo Student Life and Events Center is a phased complex of improvements located on the main campus of the University of Hawaii at Hilo. The design extends and reinforces the University's major pedestrian spine while connecting the current isolated facilities into the fabric of the main campus activities. Incorporating the existing facilities, the Student Life Center is a new recreation and athletic complex that includes both passive and active recreational opportunities. This includes six tennis courts, a weight training facility, dance and martial arts rooms, a human performance/health and wellness facility, classrooms, athletic administrative offices, security offices, a gymnasium with basketball and volleyball courts, a recreational deck and swimming pool. The Events Center is a clear span 3,200 seat sports and events arena capable of expanding to 4,800 seats in a future phase. A 15,000 sq. ft. conference center is also integrated into the Events Center. Each component of the Student Life Complex can be prioritized and constructed in desired phases to maximize the opportunity for multiple endowments to support various programs.
