

# DESIGN PARTNERS INCORPORATED

**S**INCE OPENING OUR DOORS IN 1979, it has been our goal to create great architecture that enhances the lives of the people in Hawaii. We accomplished this within a people friendly environment that reflected the unique culture and values of our islands. From beginning, we listened carefully to our clients' aspirations with the understanding that it was their dreams that we were being invited to participate in.

Design Partners Incorporated has

seen tremendous changes from our early days of T-squares, dot matrix printers and floppy disks. During that time, Hawaii has emerged as a highly regarded global destination, home to some of the most innovative architecture in the Pacific region and the world.

We believe that Hawaii will continue to be one of the world's great places to live in -- a place of unique people, unequaled beauty and abundant natural resources. On the eve of our 40th anniversary, we at DPI wish to thank all our clients for what we have accomplished together. We look forward to a future of helping them realize their dreams.
