Organization: Design Partners Incorporated

Date Posted:

Date Needed: ASAP

City: Honolulu

Location: Hawaii

Country: United States

Primary Category: Architecture

Type of Position: Full-Time

Education Requirement: BArch

Experience Requirement: 3-5 years

Description & Details

Design Partners Incorporated (DPI) is an employee-owned award-winning architecture firm based in Honolulu, Hawaii. DPI continues its growth as reflected in being ranked #1 by Pacific Business News for the fourth year in row. This recognition reflects the quality and diversity of our portfolio created by DPI's talented and creative team of staff-owners.

This position seeks to advance the professional career of an individual looking to develop a well-rounded approach to architecture with a focus in healthcare planning and design. Tasks will include preparation of presentation exhibits for client and community use as well as the preparation of design and construction documents.

Qualifications

- Pursuing professional licensure with 2-5+ years of mainstream architectural experience.
- Minimum Bachelor of Architecture degree or equivalent combination of education and relevant experience
- Basic understanding and experience in the preparation of design and construction documents from Pre-Design through Construction Documents
- Proficient in Revit BIM software in a professional environment
- Working knowledge of Microsoft Office Suite, AutoCAD; Adobe Creative Suite, Bluebeam
- Organized, team player, demonstrates initiative, demonstrates critical thinking, able to gain new skills and knowledge
- Effective written, verbal and interpersonal communication skills.

Compensation

Salary commensurate with experience. Competitive benefit package. ESOP (Employee Stock Ownership Plan) available.
